

As part of our **PHASED RETURN TO SNOWSPORT**, Snowsport England has updated its guidance.

All our guidance is based on government guidance and we are making it snowsport specific.

We would like to say a massive thank you to the clubs, coaches, volunteers and facilities that have been following our guidelines in supporting a safe return to snowsport.

Whilst restrictions have been easing it's still important that everyone plays their part in keeping our sport, clubs, coaches and volunteers safe at all times. In addition considerations need to be made for local lockdowns.

Where local lockdowns are announced COVID-19 Officers are required to review the government guidance and update their risk assessments before engaging in any activity.

In updating the risk assessment, the priority of the guidelines is as follows:

1. The Government Guidelines – must be followed, at all times
2. Facility Guidelines – these may have changed in light of change of restrictions and may vary according to venue
3. Snowsport England Guidelines

Here are updated guidance docs:

[Guidance for Snowsport facilities return to activity](#)
[Guidance for instructors & coaches return to activity](#)
[Guidance for athletes return to activity](#)
[Guidance-for-Affiliated-Clubs return to activity](#)
[COVID Secure Environment \(002\)](#)
[COVID Secure Environment- flow \(002\)](#)
[Health-and-Safety-Guidance \(002\)](#)

We have highlighted within the docs where things have been **[UPDATED]** or when **[NEW]** content has been added.

Thank you again.
