

COVID update

After the PM's address to the members of parliament earlier today, we are excited to see the return of our sport. We see that outdoor activity can start on the 29th of March 2021 and indoor activity no earlier than the 12th of April 2021. However, we still do not have the actual detail to what this will look like in terms of restrictions on activity or travel. We will be releasing updated guidance when we have confirmation on what can happen.

Of course, all this can only happen if the four conditions are met at each stage of easing the restrictions.

- The coronavirus vaccine programme continues to go to plan.
- Vaccines are sufficiently reducing the number of people dying with the virus or needing hospital treatment.
- Infection rates do not risk a surge in hospital admissions.
- New coronavirus variants do not fundamentally change the risk of lifting restrictions.

So please continue to follow the rules that the Government have set out.
